

# IT'S TIME TO PASS HB 1311 & SB 722 THAT PROTECTS OUR FIREFIGHTERS FROM LIFE-THREATENING INJURIES.

Lightweight, combustible construction supports the wood industry. Not our firefighters.

**Build with Strength** is a coalition working with fire-safety professionals and first responders to help spread the message that cheap, lightweight, combustible construction puts communities at risk.

This chart represents the fatalities and injuries suffered by firefighters in Georgia, Maryland, Massachusetts, New Jersey, and Pennsylvania in 2006-14.\*

\*National Fire Protection Association and National Fire Incident Reporting System.

**“It’s just not worth a firefighter’s life to go into a building that might collapse on them.”**
