

AMERICA IS BURNING

Fires of combustible materials are reducing apartment buildings to ashes and putting lives at risk.

The recent spate of fires in low- and mid-rise structures throughout the country is raising questions and concerns about the safety of wood-built buildings. It's clear that codes and inspections are failing to keep residents and communities safe. It's time for builders, contractors, developers, first responders and residents to come together to create new solutions that embrace non-combustible materials like steel and concrete.
