and teach
excellence.*

March 20, 2020

Dear Honorable Governor JB Pritzker,

EMERGENCY NOTICE/REQUEST:

I attended a National Conference with our Concrete industry today regarding the COVID-19 Pandemic. As is agreed in several states, we make the following urgent request for Illinois.

The Illinois Ready Mixed Concrete Association requests that you consider construction with Concrete, Cement, and Aggregate suppliers as an Essential Business/Critical Service which must be allowed to stay open and operating to keep the infrastructure going!

This request is needed to keep infrastructure going both vertical and horizontal. This would include all sectors that use concrete.

Roads, bridges, hospitals, medical centers, schools, transit buildings, and many other construction projects need to keep moving ahead for the safety and security of our Illinois Citizens, and be up to full speed when the recovery phase is upon us.

Thank you in advance for your consideration and I welcome your questions or need for more information.

Warmest regards,

James D. Randolph
