

THE INDUSTRY AT-A-GLANCE

Approximately **5,500 plants produce ready mixed concrete** in the U.S.

The value of the U.S. ready mixed concrete industry is estimated at **\$35 billion**.

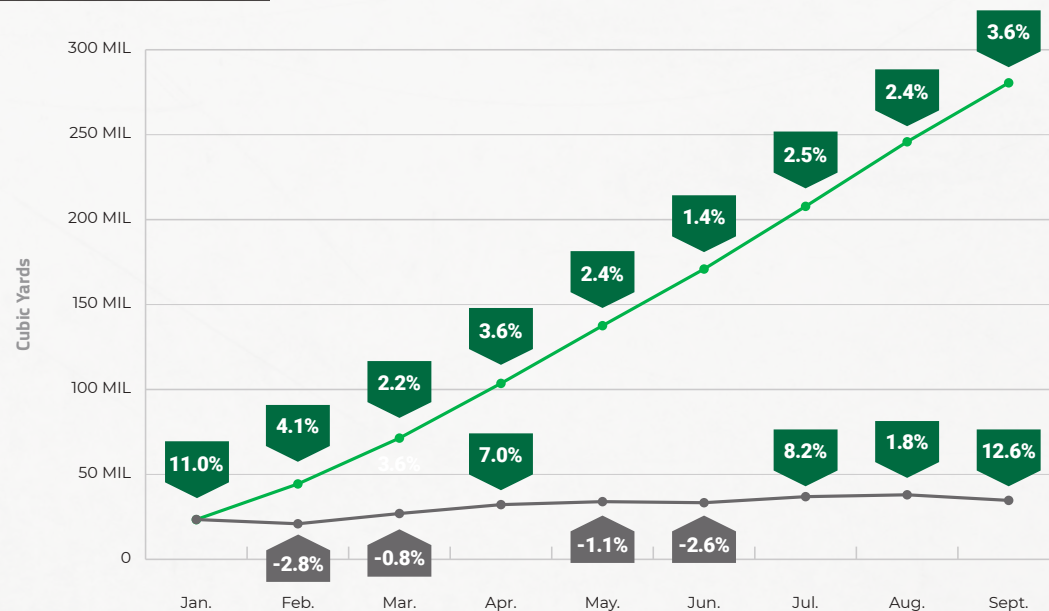

55,000 ready mixed concrete trucks deliver concrete to the point of placement.

The ready mixed concrete industry consumes about **75% of the cement shipped in the U.S.**

ANNUAL PRODUCTION GROWTH

In 2019, concrete production and growth consistently exceeded U.S. projections, promoting economic and job expansion in communities across the country.
